EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

2. The application has been amended as follows: In line 2 of claim 7, the phrase "is integrally formed of metal" has been replaced with the phrase --is integrally formed from metal as a single element-- to more clearly describe the invention.

The term "of" has been replaced with the term --about-- following the term "radially" in line 5 of claim 23, for grammatical clarity.

Allowable Subject Matter

3. Claims 1-24 are allowed.

4. The following is an examiner's statement of reasons for allowance: The prior art does not teach or suggest a wheel having a plurality of metal wheel segments mounted on opposing sides of a disc-shaped mounting plate, wherein each wheel segment includes axially and circumferentially extending locating surfaces for locating the segments with respect to the mounting surfaces of the mounting plate, and the wheel segments from each side of the mounting plate form a central groove to engage guide lugs of an endless belt.

Namely, the closed prior art, Johnson and Brittain et al differ from the claimed invention as follows:

The wheel segments 50 of Brittain et al do not include respective inner surfaces that cooperate to define the central groove 38, radially outer portions of the mounting plates (34 & 36) do.

The wheel segments (12 & 14) of Johnson are resilient members that may not be formed of any non-resilient material (such as metal), since these segments not only provide positive frictional engagement with the endless track, but also serve to act as shock absorbers.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

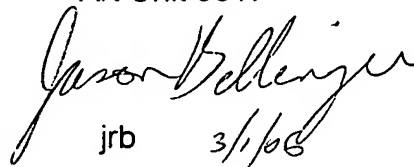

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jason R. Bellinger whose telephone number is 571-272-6680. The examiner can normally be reached on Mon - Thurs (9:00-4:00).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Joseph Morano can be reached on 571-272-6684. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
